

ALL children have the right to play at playgrounds!

However, playgrounds in Hong Kong ...

... children say
it's not fun

... parents think it's not
suitable for children
with disabilities

... designers don't
know about inclusive
play and playground
design

... government doesn't
understand that the
children do not like it

Playright aims at making it right

2013

Gather Voice

Qualitative &
Quantitative
Research
